

A diagram illustrating the concept of a horizon or line of sight. It features a wavy blue line representing the ground surface. Four trees are positioned at different points along this line. The trees have green foliage and brown trunks. The first tree on the left is the tallest and is positioned on a high peak of the ground line. The second tree is shorter and on a lower peak. The third tree is of medium height and on a low dip. The fourth tree is the shortest and on another low dip. The background is a solid light blue color.
