

DWARSPROFIELPLAN

Diagram illustrating the cross-section of a building foundation and its connection to the ground.

- The diagram shows a horizontal line representing the ground level.
- Below the ground level, a vertical line represents the foundation.
- A blue double-headed arrow labeled "0.00" indicates the width of the foundation.
- To the right of the foundation, a red horizontal line represents the building structure.
- Below the foundation, a vertical line represents the general closure.
- To the right of the foundation, a vertical line with two asterisks represents the general closure.
