DWARSPROFIELPLAN

Aangeduide kruinbreedtes zijn indicatief.

Opgemeten in: 2005

Opgemeten volgens bestek: WAT/L2001S0025X

LEGENDE

Diagram illustrating the relationship between ground types and cross-sections:

- vaste bodem** (solid ground) is represented by a blue line.
- slibbodem** (sludge bottom) is represented by a red line.
- The distance between the blue and red lines is labeled **0.00**, representing the **kruinbreedte (m)** (width of the slump).
- The vertical line represents the **as dwarsprofiel** (as cross-section).
