

## DWARSPROFIELPLAN

The diagram illustrates a cross-section of a building and its surroundings. On the left, a vertical line represents the ground level, with labels for 'Slipbodem' (slippery ground), 'Vaste bodem' (solid ground), and 'Afsluiting' (sealing). A blue double-headed arrow indicates a width of '0.00' for the 'kruinbreedte (m)' (crown width in meters). A red vertical line marks the 'As dwarsprofiel' (ridge cross-section). The building itself is shown with a hatched pattern, labeled 'Gebouw'. Below the building, a green hatched pattern represents the 'Haag' (grass). To the right, a legend identifies the materials used: 'Metselwerk' (masonry), 'Beton' (concrete), 'Doorgesneden materiaal' (cut material), 'Hout' (wood), and 'Begroeiing gras' (grass growth).
