Diagram illustrating the cross-section of a dike structure. The water level is indicated as 7.618 m. The dike structure is defined by the following components:

- beginpunt begroeiing** (start of vegetation) at the left edge.
- 0.00** m width at the top of the dike.
- kruinbreedte (m)** (crest width in meters) at the top right.
- afsluiting** (closure) at the right edge.
- vaste bodem** (fixed ground) forming the main body of the dike.
- slibbodem** (silt ground) at the base of the dike.
- as dwarsprofiel** (as cross-section) indicating the profile shown.
- kunstwerk** (structure) referring to the dike itself.
