DWARSPROFIELPLAN

Diagram illustrating the relationship between ground types and cross-sections:

- vaste bodem** (solid ground) is represented by a horizontal line.
- slibbodem** (sludge ground) is represented by a vertical line.
- as dwarsprofiel** (as cross-section) is represented by a vertical line with 'x' marks.
- afsluiting algemeen** (general closure) is represented by a horizontal line.
- The distance between the ground surface and the cross-section is labeled **0.00**.
