The figure is a cross-section profile of a waterway. The top part shows a cyan line for the fixed ground (VASTE BODEM) and a black line for the silt bottom (SLIBBODEM). A red vertical line indicates the water level (AS WATERLOOP). The profile is divided into vertical sections by thin black lines. Below the profile is a table with four rows: HOOGTEPEIL, SLIB, KUMULAFSTAND, and TUSSENAFSTAND. The HOOGTEPEIL row shows elevation values for each section. The SLIB row shows silt depth values. The KUMULAFSTAND row shows cumulative distance values. The TUSSENAFSTAND row shows distance between sections. The profile is labeled with 'OO' in the center and 'B1048' at the bottom right.
