The figure is a cross-section profile plan. It features a horizontal axis representing distance and a vertical axis representing elevation. The ground level is shown as a cyan line, and the bed level is shown as a black line. The cumulative distance is shown as a black line. The profile includes several vertical lines representing buildings or structures. The ground level is marked with green circles at specific points. The bed level is marked with a red line. The cumulative distance is marked with a black line. The profile is divided into sections by vertical lines, with numerical values for ground level, bed level, and cumulative distance provided for each section.
