The figure is a cross-section profile of a riverbed. The top part shows a cyan line representing the 'VASTE BODEM' (solid bed) and a black line representing the 'SLIBBODEM' (silt bed). The profile starts on the left with a slight dip, then rises to a peak, followed by a gradual decline and then a sharp rise towards the right. A red vertical line is drawn at the center of the profile, indicating a specific location. Two green circles are placed on the cyan line, one on the left side of the red line and one on the right side. Below the profile, there are four rows of data: 'BODEMPEIL' (bed elevation), 'SLIBBODEM' (silt bed elevation), 'CUMULAFSTAND' (cumulative distance), and 'TUSSENAFSTAND' (intermediate distance). The 'BODEMPEIL' row contains values ranging from 49.98 to 54.95. The 'SLIBBODEM' row contains values ranging from 49.03 to 49.63. The 'CUMULAFSTAND' row contains values ranging from -18.76 to 18.15. The 'TUSSENAFSTAND' row contains values ranging from 1.92 to 2.29.
