The figure is a cross-section profile of a watercourse. The top part shows a cyan line for the ground level (VASTE BODEM) and a black line for the bed level (SLIBBODEM). The ground level starts at an elevation of 53.99 on the left and generally slopes downwards to a minimum of 50.43 in the center, then slopes upwards to 54.40 on the right. The bed level is consistently lower, starting at 53.99 and ending at 54.40. A red vertical line marks the center of the watercourse. Two green circles are placed on the ground level line, one on each side of the center. Below the profile, a table provides the following data:
