The figure is a cross-section profile of a waterway. The top part shows a cyan line representing the ground surface (VASTE BODEM) and a black line representing the bed (SLIBBODEM). The profile is divided into vertical sections by thin black lines. A red vertical line marks a specific point in the center. Below the profile is a table with four rows: HOOGTEPEIL, SLIB, KUMULAFSTAND, and TUSSENAFSTAND. The HOOGTEPEIL row shows elevation values for each section. The SLIB row shows the bed elevation. The KUMULAFSTAND row shows the cumulative distance from the start. The TUSSENAFSTAND row shows the distance between sections.
