The figure is a cross-section profile of a waterway. The top part shows a cyan line representing the ground level (VASTE BODEM) and a black line representing the bed level (SLIBBODEM). The area between them is shaded light blue. A red vertical line marks the center of the waterway. Two green circles on the ground level line indicate the start and end of the measurement. The bottom part of the figure is a table with four rows: HOOGTEPEIL, SLIB, KUMULAFSTAND, and TUSSENAFSTAND. The table contains numerical data for each measurement point along the profile.
