The figure is a cross-section profile of a riverbed. It features a cyan line representing the riverbed profile, with green circles marking specific points. A red vertical line indicates a specific location. The profile is supported by a table of data. The table has four rows: 'VASTE BODEM' (Fixed Bottom), 'SLIBBODEM' (Sludge Bottom), 'TUSSENAFSTAND' (Interval), and 'KUMULAFSTAND' (Cumulative Distance). The columns represent different points along the profile, with numerical values for elevation and distance.
