The figure shows a cross-section profile of a river channel. The top line (cyan) represents the ground level, and the bottom line (black) represents the channel bed. A red vertical line indicates the river axis. The profile is divided into 15 vertical sections by thin black lines. Below the profile is a table with four rows: VASTE BODEM, SLIBBODEM, TUSSENAFSTAND, and KUMULAFSTAND. The table contains numerical data for each of the 15 sections.
