The figure is a cross-section profile plan. It features a cyan line representing the ground surface, which has several peaks and valleys. A black line represents the subsoil level, and a red vertical line indicates a specific point of interest. The profile is divided into segments by vertical lines. Below the profile is a table with four rows: 'VASTE BODEM' (solid ground), 'SLIBBODEM' (sludge ground), 'TUSSENAFSTAND' (intermediate distance), and 'KUMULAFSTAND' (cumulative distance). The table contains numerical values for each segment, including elevations and distances. The elevations are given in meters above sea level (mN).
