- The figure is a cross-section profile of a waterway. The top line represents the ground level (VASTE BODEM) in cyan. Below it, a black line represents the bed level (SLIBBODEM). A red vertical line indicates the water level (AS WATERLOOP). The profile shows a dip in the center with two green circles marking the edges of the waterway. The profile is divided into 18 vertical sections by thin black lines. Below the profile is a table with four rows: HOOGTEPEIL, SLIB, KUMULAFSTAND, and TUSSENAFSTAND, each with 18 columns corresponding to the sections.
