- The figure is a cross-section profile of a waterway. The top line represents the ground level (VASTE BODEM) in cyan. Below it, a black line represents the bed level (SLIBBODEM). A red vertical line indicates the water level (AS WATERLOOP). The profile shows a dip in the bed level in the center, with a building crossing (KRUISING GEBOUW) and a closure crossing (KRUISING AFSLUITING) located there. The profile is divided into sections by vertical lines, with elevation and distance data provided for each section.
