- The figure is a cross-section profile of a waterway. The top line represents the ground level (VASTE BODEM) in cyan. Below it, a black line represents the bed level (SLIBBODEM). A red vertical line indicates the water level (AS WATERLOOP). The profile shows a central depression with a small island or shoal in the middle. Two green circles mark the edges of the waterway (RAND VAN DE OEVERBEGROEIING). The profile is divided into vertical sections by thin black lines. Below the profile is a table with four rows: HOOGTEPEIL, SLIB, KUMULAFSTAND, and TUSSENAFSTAND, each with numerical values corresponding to the sections.
