- The figure is a cross-section profile of a waterway. The top part shows a cyan line representing the ground level (VASTE BODEM) and a black line representing the bed level (SLIBBODEM). A red vertical line indicates the water level (AS WATERLOOP). The profile is divided into sections by vertical lines. Below the profile is a table with four rows: HOOGTEPEIL, SLIB, KUMULAFSTAND, and TUSSENAFSTAND. The HOOGTEPEIL row shows elevation values for each section. The SLIB row shows the bed level. The KUMULAFSTAND row shows the cumulative distance from the start. The TUSSENAFSTAND row shows the distance between sections.
