- The figure is a cross-section profile of a waterway. The top line represents the ground level (VASTE BODEM) in cyan. Below it, a black line represents the bed level (SLIBBODEM). A red vertical line indicates the water level (AS WATERLOOP). The profile shows a series of vertical sections with varying widths. Two green circles mark specific points on the ground level. The data table below the profile provides numerical values for elevation and distance for each section.
