- The figure is a cross-section profile of a waterway. The top line is a cyan line representing the ground surface (VASTE BODEM). Below it is a black line representing the bed level (SLIBBODEM). A red vertical line indicates the water level (AS WATERLOOP). The profile shows a dip in the center, with two green circles marking the edges of the waterway. The bottom of the profile is a table with three rows: HOOGTEPEIL, KUMULAFSTAND, and TUSSENAFSTAND. The table contains 18 columns of data, corresponding to the profile's segments.
