- The figure is a cross-section profile of a waterway. The top line represents the ground level (VASTE BODEM) in cyan. Below it, a black line represents the bed level (SLIBBODEM). A red vertical line indicates the water level (AS WATERLOOP). The profile is divided into sections by vertical lines. The elevation of the ground level is shown in the top row of the table below, and the elevation of the bed level is shown in the second row. The cumulative distance from the start of the profile is shown in the third row, and the distance between sections is shown in the bottom row.
