- The figure is a cross-section profile of a waterway. The top part shows a line graph of the water level (HOOGTEPEIL) and the bed level (SLIB). The water level is marked with green circles at specific points. The bed level is shown as a solid line. A red vertical line indicates the water level at a specific point. Below the graph is a table with four rows: HOOGTEPEIL, SLIB, KUMULAFSTAND, and TUSSENAFSTAND. The HOOGTEPEIL row shows elevation values in meters. The SLIB row shows the bed level in meters. The KUMULAFSTAND row shows the cumulative distance in meters. The TUSSENAFSTAND row shows the distance between points in meters.
