- The figure is a cross-section profile of a waterway. The top line represents the ground level (VASTE BODEM) in cyan. Below it, a black line represents the bed level (SLIBBODEM). A red vertical line indicates the water level (AS WATERLOOP). The profile is divided into sections by vertical lines. The elevation (HOOGTEPEIL) is shown in the top row of the table below, and the distance (TUSSENAFSTAND) is shown in the bottom row. The profile shows a slight dip in the center, with the water level (red line) positioned above the bed level (black line) in the center section.
