

The diagram shows a horizontal axis representing a 1D landscape. From left to right, the features and their positions are:

- as waterloop**: A red vertical line at the far left.
- gebouw**: A purple dot on the axis.
- afsluiting**: A black vertical line with four small circles on it.
- rand begroeiing**: A green circle on the axis.
- rand weg**: A black square on the axis.
- afmetingen waterloop**: A vertical double-headed arrow labeled $1,5$ indicating a width.
- kunstwerk**: A black circle on the axis.
- waterpeil**: A blue arrow pointing down to the axis, labeled $15,20$.
- boom**: A green tree icon on the far right.

There are also two horizontal dimension lines above the axis:

- One from the **as waterloop** to the **gebouw**, labeled $19,66$.
- Another from the **gebouw** to the **afsluiting**, labeled $15,20$.
