The figure is a cross-section profile of a riverbed. The horizontal axis represents distance in meters, and the vertical axis represents elevation in meters. The profile shows a series of vertical lines representing the riverbed at different points. A red vertical line marks the location of 'MOLENBEEK'. The profile starts at an elevation of 36.16 m on the left and ends at 33.80 m on the right. The elevation decreases from left to right, with a slight increase in the middle section. The profile is labeled with 'MOLENBEEK' in red text.
