slibbodem

The figure shows a cross-section profile of a landscape. The horizontal axis represents distance, and the vertical axis represents elevation. The profile includes a stream (Molenbeek) in the center, with a red vertical line indicating its location. The terrain is shown with a cyan line for the 'vaste bodem' (solid ground) and a black line for the 'slibbodem' (sludge bottom). Various features are marked with symbols from the legend: buildings (hatched rectangles), walls (vertical lines), vegetation points (green dots), and a road (dashed line). The profile is divided into sections by vertical lines, with some sections labeled with names like 'Oppemstraat'.
