slibbodem

The figure shows a cross-section profile of a ditch. The top cyan line represents the 'vaste bodem' (fixed ground) and the bottom black line represents the 'slibbodem' (sludge bed). The ditch is labeled 'MOLENBEEK' in red. The profile is divided into sections by vertical lines. The ground level is generally higher on the left and right sides, with a slight dip in the center where the ditch is located. The sludge bed is lower, following the contour of the ditch. The profile is divided into sections by vertical lines, with the central section being the deepest part of the ditch.
