

The diagram illustrates the cross-section of a bridge deck. The central part shows the deck's profile with a cyan line representing the top surface. The deck is supported by a central pier and two side piers. The elevation of the deck top is 33.42. The width of the deck at the top is 33.67. The width of the deck at the base is 34.77. The diagram also shows the width of the deck at different points along its length, with values ranging from 2.60 to 22.21. The diagram includes a table of data for the bridge deck, showing the width of the deck at different points along its length, the elevation of the deck top, and the width of the deck at the base.
