The figure shows a cross-section profile of a riverbed. The top line represents the terrain (MATEN TERREIN) and the bottom line represents the silt level (MATEN SLIB). The profile includes several vertical lines indicating different sections. Key measurements are highlighted: a total width of 7,55, a section width of 3,25, and a depth of 2,32. The data table below provides numerical values for the terrain and silt levels, as well as the distances between them.
