vaste bodem

slibbodem

The figure shows a cross-section profile of a waterway. The top cyan line represents the 'vaste bodem' (fixed bed) and the bottom black line represents the 'slibbodem' (sludge bed). A pink building structure is shown in the center, with a label '705/101' above it. A red line with circles indicates a fence or barrier. The profile is divided into 18 vertical sections by thin black lines. Below the profile is a table with four rows of data: BODEMPEIL, SLIBBODEM, CUMULAFSTAND, and TUSSENAFSTAND.
