The figure is a cross-section profile of a waterway. The top part shows a cyan line representing the 'vaste bodem' (fixed bed) and a black line representing the 'slibbodem' (mud bed). The profile is divided into sections by vertical lines. A red line with 'X' marks indicates a specific feature, possibly a gate or a break in the bed. Below the profile is a table with four rows: 'BODEMPEIL' (Bed Level), 'SLIBBODEM' (Mud Bed), 'CUMULAFSTAND' (Cumulative Stand), and 'TUSSENAFSTAND' (Intermediate Stand). The table provides numerical data for each section, including elevations and distances.
