slibbodem

The figure is a cross-section profile of a waterway. The top part shows a cyan line for the 'vaste bodem' (fixed bed) and a black line for the 'slibbodem' (mud bed). The profile includes several vertical markers: a pink hatched area for 'gebouw' (building), a red line with 'x' markers for 'afsluiting, prikkeldraad' (closure, barbed wire), a red line with 'o' markers for 'algemene afsluiting' (general closure), a red line with 'x' and 'o' markers for 'afsluiting, betonpaaltjes + prikkeldraad' (closure, concrete posts + barbed wire), a green rectangle for 'haag' (ditch), and a green dot for 'beginpunt oeverbegroeiing' (start point of bank vegetation). Below the profile is a table with four rows: 'BODEMPEIL' (bed level), 'SLIBBODEM' (mud bed), 'CUMULAFSTAND' (cumulative distance), and 'TUSSENAFSTAND' (inter-distance). The table contains numerical values for each of the 18 vertical sections shown in the profile.
