vaste bodem

slibbodem

The figure is a cross-section profile of a waterway. The top part shows a cyan line representing the 'vaste bodem' (firm bed) and a black line representing the 'slibbodem' (mud bed). The profile includes a central structure with two circular openings, likely a bridge or culvert. To the left and right of this structure are areas with vegetation, indicated by green dots. There are also two red square symbols with 'X' marks, possibly indicating specific points of interest or structures. The profile is divided into sections by vertical lines, and the bottom part of the image contains a table with data for each section.
