The figure shows a cross-section profile of a waterway. The top part is a line graph with a cyan line for 'vaste bodem' (fixed bed) and a black line for 'slibbodem' (mud bed). The profile is divided into 18 vertical sections. A red line with a square and 'X' symbol is located in the 4th section. A pink trapezoidal structure is shown in the 17th section. To the right, a pink box labeled '679/041' is shown with a vertical red line passing through it. Below the graph is a table with four rows: BODEMPEIL, SLIBBODEM, CUMULAFSTAND, and TUSSENAFSTAND. The table has 18 columns corresponding to the sections. The first column is empty, and the last column is empty. The data is as follows:
