slibbodem

The figure is a cross-section profile of a waterway. The top part shows a cyan line representing the 'vaste bodem' (fixed bed) and a black line representing the 'slibbodem' (mud bed). The profile is divided into 20 vertical sections. The first 10 sections show a relatively flat bed with a slight dip in the middle. The next 10 sections show a more pronounced dip, with a red line indicating a specific point of interest. The bottom part of the figure is a table with four rows: 'BODEMPEIL' (Bed Level), 'SLIBBODEM' (Mud Bed), 'CUMULAFSTAND' (Cumulative Distance), and 'TUSSENAFSTAND' (Intermediate Distance). The table contains numerical data for each of the 20 sections.
