The diagram shows a cross-section of a weir structure. A cyan line represents the ground profile, and a red line represents the water level. The weir structure is shown in the center, with a crest width of 2.376m. The water level is 12.09m on the left and 12.00m on the right. The weir structure has a crest width of 2.376m and a height of 11.83m on the left and 11.74m on the right. The table below provides the elevation and distance data for the weir structure.
