Kunswerk 6559/521 stroomopwaarts

The diagram shows a cross-section of a weir structure. A cyan line represents the 'vaste bodem' (fixed ground). A red line represents the 'as dwarsprofiel' (main cross-section). The structure is a concrete weir with a crest width of 1.520. The crest is at an elevation of 16.02. The upstream side has a slope of 1:1.5. The downstream side has a slope of 1:2.0. The crest is topped with a concrete parapet. The structure is located at a distance of 25.20 from the fixed ground on the upstream side. The crest is at a distance of 1.520 from the fixed ground on the downstream side. The crest is at a distance of 1.520 from the fixed ground on the downstream side. The crest is at a distance of 1.520 from the fixed ground on the downstream side.
