- The figure is a cross-section profile of a riverbed. The top part is a line graph showing the riverbed elevation (Bodempeil) in meters. The line starts at 52.09m on the left and slopes down to a minimum of 45.70m, then rises to 46.94m on the right. The area under the line is divided into 15 vertical sections by thin black lines. Below the graph is a table with four rows of data: Bodempeil, Slibbodem, Cumulafstand, and Tussemafstand. The Bodempeil row contains 15 values from 52.09 to 46.94. The Slibbodem row contains 15 values from 45.91 to 46.19. The Cumulafstand row contains 15 values from -24.43 to 4.92. The Tussemafstand row contains 15 values from 2.02 to 2.28. A red vertical line is drawn at the 10th section, corresponding to a Bodempeil of 45.70m. Two green circles are placed on the Bodempeil line at the 10th and 11th sections. Two small circles are at the far right of the profile.
