= KRUISING GEBOUW

= KRUISING AFSLUITING

= GEBOUW

The figure is a cross-section profile of a waterway. The top part shows a cyan line for the fixed ground (VASTE BODEM) and a black line for the silt ground (SLIBBODEM). The profile starts on the left with a relatively flat ground level, then dips into a channel. A building crossing (KRUISING GEBOUW) is shown as a hatched area in the center of the channel. A red vertical line indicates a crossing closure (KRUISING AFSLUITING) just to the right of the building. The ground then rises steadily to the right. Below the profile, a table provides numerical data for each section.

BODEMPEIL	56.53	56.60	56.68	56.86	57.04	57.05	56.99	57.00	56.52	56.27	56.27	55.97	55.98	55.99	56.25	56.59	57.12	57.28	57.86	58.16	58.57	59.06	59.48	59.95	60.30	60.60	60.94
